

African Population and Health Research Center

WELCOME TO APHRC

Advanced Mapping of Urban Population Patterns in Sub-Saharan Africa

Welcome:
Caroline Kabaria, PhD
APHRC

Vision

Transforming lives in Africa through research

Urbanization and Wellbeing in Africa research at APHRC

- For over 15 years, we have extents of intra-urban inequities in SSA

Causes, Course & consequences of urbanization

Environmental impacts on health

Slum systems for health

Integrating spatial data - important to understand urbanization and transitions in human settlements

From experience....Spatial data is key for urban population and health research

Spatial data helps understand urban trends ...

2018

Mukuru slum

2003

Transforming lives in Africa through research

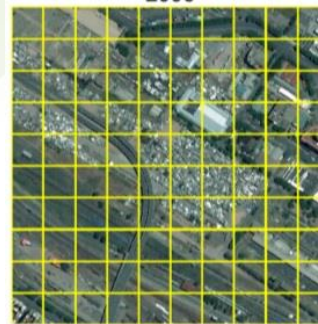

Spatial data enables more accurate urban monitoring...

2018

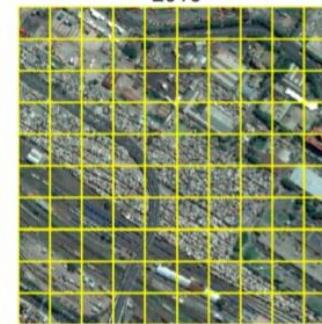

Viwandani slum

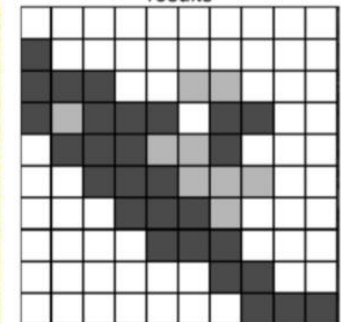

2010

2010

2018

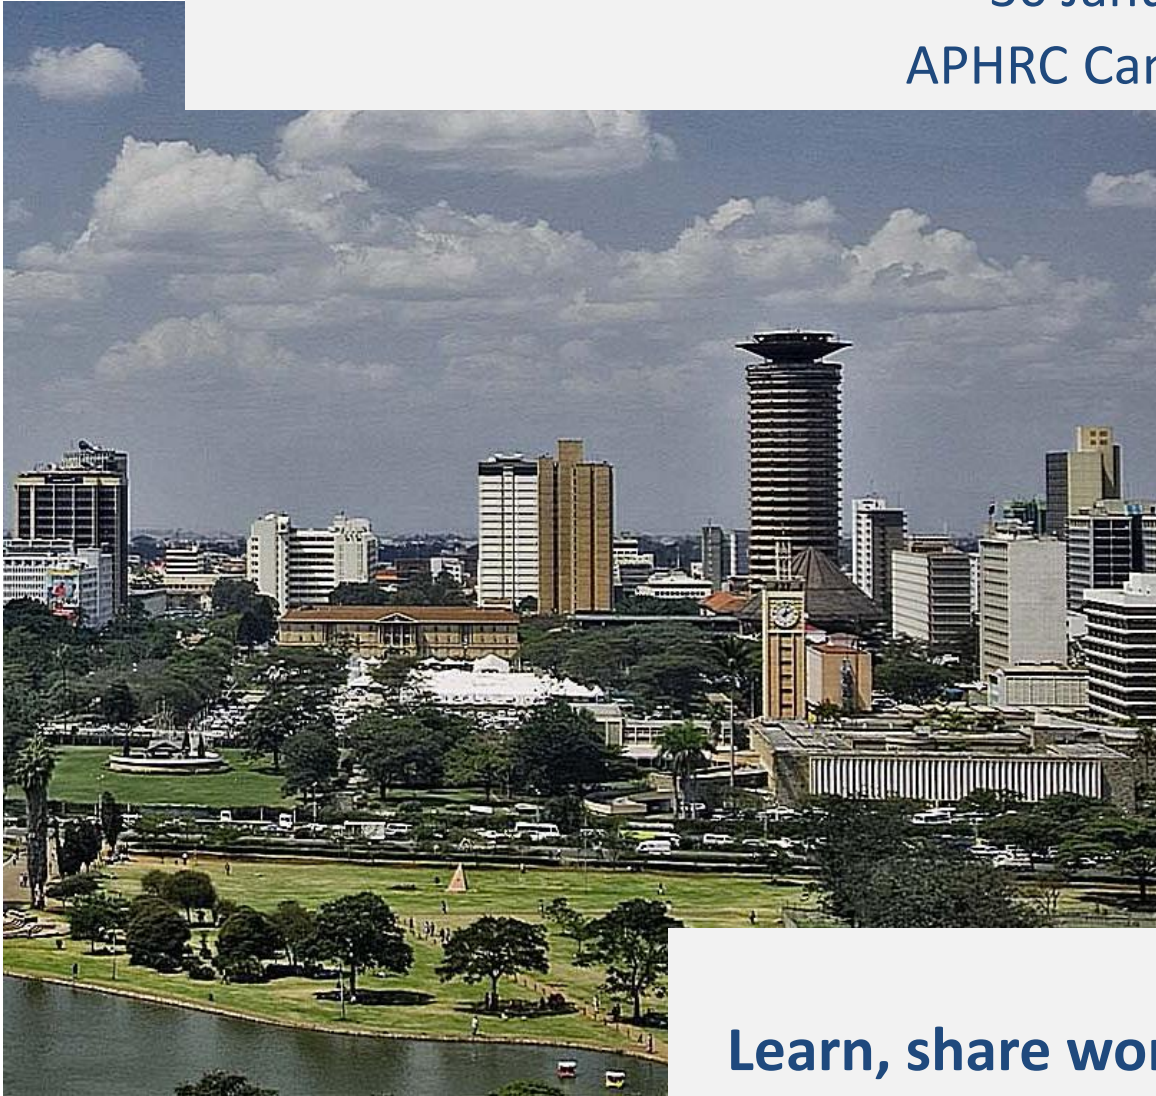

slum at both dates
no-slum at both dates
no-slum that became slum
slum that became no-slum

Advanced Mapping of Urban Population Patterns in Sub-Saharan Africa Conference

30 January 2019,
APHRC Campus, Nairobi
